

VETERANS HEALTH CARE FACILITIES CAPITAL IMPROVEMENT ACT

Mrs. MURRAY. Mr. President, I rise today in support of H.R. 2646, as amended, the Veterans Health Care Facilities Capital Improvement Act of 2011. I urge our colleagues to support this bipartisan legislation, which would allow for new construction projects in five States and Puerto Rico and would extend several VA programs, including vital homeless programs.

Last year, Congress passed, and the President signed into law, Public Law 112-10, Department of Defense and Full-Year Continuing Appropriations Act, and provided an advanced appropriation of fiscal year 2012 funding for veterans' health care. Enacting H.R. 2646, as amended, would avoid interruptions in VA programs and would allow VA to use the full amount of funding provided through Public Law 112-10.

VA has worked tirelessly to get veterans off the streets and into housing. Their efforts are commendable, but there is still work to be done. H.R. 2646, as amended, contains critical extensions to many of VA's programs to end homelessness among veterans. This bill would allow VA to continue to operate the drop-in resource centers that help connect homeless veterans to services; provide grants to transitional housing programs for the most vulnerable homeless veterans, such as the frail elderly, terminally ill, women with children, and seriously mentally ill; and continue its street outreach and emergency care services for homeless veterans. These programs are on the front line of VA's services for homeless veterans.

One of the best ways to end veteran homelessness is to prevent it from happening. This bill would support VA's homelessness prevention and rapid rehousing programs by extending the Supportive Services for Veteran Families Program, a critical resource for stopping homelessness before it begins. H.R. 2646, as amended, also extends the Homeless Veterans' Reintegration Program, which helps homeless veterans find and maintain employment. Extending these programs will decrease the number of veterans who may become homeless in these tough economic times.

VA has a long list of construction projects that have yet to be funded. H.R. 2646, as amended, would allow VA to make critical upgrades to its facilities and infrastructure to ensure that we can provide care to veterans in a safe environment. For instance, this bill would allow VA to begin a \$51 million project to seismically strengthen the nursing tower and community living center at the VA Puget Sound Healthcare System in Seattle, WA. Built in 1985, this building does not meet the current seismic code for Washington State. Located in an area of high seismic activity, it is vital that this building be upgraded so that the VA Puget Sound Healthcare System

can continue to deliver world-class healthcare to veterans in a safe environment.

We must allow VA to continue work on projects such as seismic corrections in San Juan, PR; construction of new Polytrauma and Blind Rehabilitation Centers in Palo Alto, CA; medical center improvements and cemetery expansion in St. Louis, MO; and additional parking facilities and nurse education opportunities to ongoing projects in Fayetteville, AR and Orlando, FL, respectively. Additionally, it would authorize VA to lease space for outpatient clinics in Columbus, GA; Fort Wayne, IN; Mobile, AL; Salem, OR; San Jose, CA; South Bend, IN; and Springfield, MO.

This bill helps us honor the legacy of heroic veterans by dedicating VA medical facilities in their names. With the endorsement of every member of the Texas congressional delegation, the West Texas VA Health Center in Big Spring, TX, would be renamed in honor of George H. O'Brien, a hometown hero. With similar support from the Colorado Congressional delegation, the Telehealth Clinic in Craig, CO, would be renamed in honor of MAJ William Edward Adams.

Our Nation's veterans have sacrificed much in their service to this country, we must make sure they receive the care and benefits they earned.

TRIBUTE TO MIKE DAVIDSON

Mr. ROCKEFELLER. Mr. President, I rise to commend and thank Mike Davidson for his decades of extraordinarily dedicated and consequential service to our Nation, most recently as the general counsel for the Senate Select Committee on Intelligence over the past 8 years.

Many others have praised the wise, discerning, and sound counsel that has characterized every step of Mike's distinguished career, from his time in the Peace Corps in Kenya in the mid-1960s throughout his decades of service since then: as a litigator for the NAACP Legal Defense Fund, as a professor of clinical law at the State University of New York at Buffalo, as chief staff counsel for the U.S. Court of Appeals for the District of Columbia, as the first legal counsel of the Senate, and, following his first retirement from the Senate in 1995, as counsel for several important public initiatives—including, most prominently, serving as general counsel for the Joint Inquiry into Intelligence Community Activities Before and After the Terrorist Attacks of September 11, 2001.

This exceptionally distinguished record speaks for itself, and in 2003 it led me to recruit Mike back to full-time service in the Senate. As the Intelligence Committee's vice chairman at the time, I asked Mike to serve as the committee's minority counsel, a position he held from 2003 through 2006. When I became the committee's chairman in 2007, I asked Mike to undertake

the duties of general counsel. He agreed to take on this role, and he continued to serve me and the committee well throughout the 2 years that I was chairman. After I passed on the gavel to Senator DIANNE FEINSTEIN in 2009, Mike stayed on for nearly 3 more years, until his quiet retirement earlier this month.

Throughout this time on the committee, Mike's calm and unflappable presence; his evenhanded, understated, and fair approach to even the most contentious issues; his painstaking attention to detail and unfailing memory; and, above all, his dedication to the law and to the security interests of the United States, have served this committee and our Nation well. Day in and day out, we knew we could rely on Mike's counsel. Whether it was a situation involving routine oversight or a matter of great sensitivity and historical importance—of which there were many during those years, including our investigations into the intelligence regarding weapons of mass destruction in Iraq, our efforts to end the CIA's coercive interrogations, our drafting and passing the landmark Foreign Intelligence Surveillance Act Amendments Act of 2008, among others—Mike Davidson's legal acumen and advice were invariably excellent, and also indispensable to the work of the committee.

My colleagues and I trusted Mike's judgment implicitly. His example of dedicated public service and his exceptional day-to-day performance on the job earned our respect and admiration, and it inspired a generation of staff who had the privilege to work alongside him.

We will miss Mike dearly, but his legacy will remain a part of the Senate Select Committee on Intelligence for years to come. We wish him well in his second retirement, even as we leave the light on for him just in case he decides to serve again.

NATIONAL PROSTATE CANCER AWARENESS MONTH

Mr. JOHNSON of South Dakota. Mr. President, today I rise to recognize September as National Prostate Cancer Awareness Month. Prostate cancer is one of the most common types of cancer in men. Approximately one in six men will be diagnosed with this disease during their lifetime and it is estimated that over 240,000 men will be diagnosed with and over 33,000 men will die from the disease this year. While no cure has been found, early detection presents our best chance at saving lives. Public awareness of prostate cancer is improving but statistics demonstrate that more can be done to make awareness and early detection of this disease a national priority.

The odds of successfully treating this disease improve with early detection, and health experts recommend that men begin receiving yearly screenings at age 50 or sooner for those men at
